be downloaded at www.LaserPegs.com

Laser Peg® Parts List

There Are No LEDs In The 90 Degree Peg
Or Baseball Cap

Each Laser Peg® is color coded on the circuit board inside
each shape. There is No LED In The 90 Degree Peg.

Laser Pegs® link that
allows you to connect to
other construction kits.

Triangle Power
Base

Construction Parts List

LASER PEGS® The Ultimate Toy For Kids®

Connecting Pegs

To construct with Laser Pegs®, slide two pieces together to form a connection. Slide each piece on and off smoothly. To build away from the Triangle Power Base, use the peg cord in one of the top three peg holes to illuminate your model! The 90° pegs are essential to construction but they DO NOT ILLUMINATE.

Press button to turn on/off

Push button to cycle
through 3 different
light settings.

Power Button

Peg Holes

AC Adapter
Connection

When Using Batteries

1. Remove screws.
2. Place three AA batteries in the correct position - as displayed inside the Triangle Power Base.
3. Push RED button to turn on!
4. Do not mix old and new batteries.
5. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries!
6. Exhausted batteries are to be removed from the power base.
7. Never connect more than 200 Laser Pegs®
8. Non-rechargeable batteries are not to be recharged.
9. Rechargeable batteries are only to be charged under adult supervision.
10. Rechargeable batteries are to be removed from the toy before being charged.
11. Batteries are to be inserted with the correct polarity.
12. The supply terminals are not to be short-circuited.

Remove the three Philips head
screws with a 4mm screw driver.
Requires (3AA) Batteries

Using an AC Adapter

Remove all batteries
from Laser Pegs® power
base before using the
5 volt AC adapter.

When using an AC
Adapter, **NEVER**
place the adapter
plug into the Tri-
angle power base
top peg holes.

*To avoid short-circuits, keep metal objects and
other un-authorized materials from obstructing
the peg holes.

Never connect more than 200
Laser Pegs® when using a 5 volt
(2000mA) AC Adapter.

The AC adapter and the power base are to be regularly examined for damage
to the cord, plug, enclosure and other parts, and in the event of such damage,
they must not be used until the damage has been repaired.

WARNING! Each Laser Peg® draws current from the batteries. Therefore, the more
pegs you use, the quicker you will deplete your battery power! As the power
weakens, the current will slowly fail and some Laser Pegs® will illuminate (typically
the reds and yellows) and some won't. When the Laser Pegs® dim the Laser Pegs®
are not broken, they just need stronger batteries or an AC Adapter.

You have 3 simple options...

1. Use a 5 volt AC Adapter -available from www.LaserPegs.com
2. Change the batteries.
3. Use high quality batteries. They will last a little longer, but they will still deplete rapidly the more laser pegs you connect!

MLB Series Bat, Baseball, and Glove Pegs

The MLB Series Laser Pegs® kit includes the Bat, Baseball, and Glove Pegs.
These shapes can be used with any other existing Laser Pegs® kit. All three
of the MLB Series Pegs illuminate.

BASEBALL
PEG

BAT PEG

GLOVE PEG

The MLB Series Laser
Pegs® kit Baseball,
Bat, and Glove
Pegs have only one
mating end.

All MLB Series Laser Pegs® specialty pegs can be used with other existing
Laser Pegs® kits.

MLB Series Baseball Cap is also included.

Your MLB Series Laser Pegs® includes the Baseball Cap. This part does NOT
illuminate. It is a construction part that is exclusive to Laser Pegs® and
designed to mate to the socket side of the Wheel Peg.

Carefully place the
Cap onto the socket
side of a wheel peg
to complete your
player models.

The Cap is designed
to fit snugly onto
the wheel peg.

Affixing MLB Team Logo Stickers

Your MLB Series Laser Pegs® kit comes with a set of licensed MLB team
decals. There is one sticker per team included. These stickers can
be affixed to the front of the Baseball Cap part.

There will be one (1) sheet of MLB logo stickers included inside each
individual MLB Series Laser Peg® kit. This sheet of stickers will have a logo
representing each Major League team that can be placed on the front of
the Baseball Cap. Before applying stickers, it is advisable to first wipe any
dirt, oil or residue that maybe on the surface of the part due to handling
with a clean dry cloth. This will help ensure proper adhesion to the cap's
surface.

Apply Sticker to
the front of the
Baseball Cap.

WARNING! Do not ingest stickers or backing sheet. This could be potentially
dangerous and may cause severe injury. So keep away from small children.
